WORK EXPERIENCE

AI Trainer at **Yellow Tech** Nov 24 - current

Teaching to high school teachers the fundamentals of AI

Co-founder at **StudyBuddy** Jan 23 - current

Building an all-in-one productivity platform for university students.

Visiting researcher at **Uppsala University** Apr 24 - Jun 24

Conducting research on social media dynamics, particularly polarization and disagreement on platforms like Twitter and Reddit. Utilizing NLP techniques and multi-layer networks for analysis.

Data Science intern at **Uppsala University** Mar 23 - Jun 23

I worked on my master thesis titled "Analyzing polarization in climate change tweets during COP: a multi-layer networks and topic modeling approach".

Data Science intern at **Eurecat** Jan 21 - Jul 21

I worked on my bachelor thesis titled "Analysis of reverts and edit wars on Wikipedia" where I studied the interaction between Wikipedia users, specifically when someone is reverting someone's else edit

EDUCATION

Data Science MSc at **University of Trento** 2021 - 2023

Computer Science BSc at **University of Trento** 2018 - 2021

PROJECTS

Most of the code I've developed over the past years, including that used for my research, is publicly available on GitHub. Here are some of the most relevant projects:

Tweets-to-topic-network [Link to pypi](#)

Developed a Python library tailored for social scientists to efficiently label tweets using BERTopic. The library facilitates the creation of temporal text networks and multilayer networks.

StudyBuddy-tutor [Link to GitHub](#)

Developed a Telegram bot designed to assist students throughout their university journey. The bot is integrated with knowledge of the academic calendar and features advanced generative AI capabilities.

AWARDS

NOI Hackaton 2023 winner: CabChat [presentation](#)

In just 24 hours, I developed a voice interface for taxi drivers capable of understanding unstructured text from a voice message using a Telegram bot as interface.

NOI Hackaton 2019 winner: Jeff Booking [presentation](#)

Alexa skill for booking hotels in Sudtiroil.
